

Join video meetings
on-time, every time

Schedule video meetings in Outlook or Google Calendar and join with one click from anywhere and any device, regardless of vendor.

WHAT DOES IT DO?

Synergy JOIN provides a simple and user-friendly method to schedule and start video meetings. Users can book video conferences in Outlook or Google Calendar without plug-ins and join with 'one-click' from a video conferencing system, desktop and mobile regardless of vendor. With sensors you get no-show warnings or check-in to meeting rooms. Rich vendor support gives the most robust, scalable and flexible scheduling workflow system on the market

WHY IS IT IMPORTANT?

Every UC vendor has their proprietary or "own" way to schedule and join virtual meetings. With Synergy JOIN all meetings can be scheduled natively in your organizations calendar (Outlook or Google Calendar). All meetings, streaming's and recordings can start with one-click or automatically. No training required for users.

WHO IS IT FOR?

All organizations that want better control and utilization of meeting rooms and / or videoconferencing use. Our customers range from small organizations with a few meeting rooms to the biggest organizations with 1000's of rooms and multiple unified communication platforms. The broad vendor support makes it ideal for organizations with mixed environments, internal and external communications as well as homogeneous organizations that are communicating with externals using unknown video solutions

Synergy JOIN is a huge timesaver. Now users just go into the meeting room, push the green button and it's on!

FORWARD

JOIN

JOIN

MEET

MEET

ONE CLICK

Start all meetings with one-click.

Cisco – One Button to Push (OBTP), Poly – click-to-Join (CTJ), or set up a dial out to any end-point. Mobile and browser click to join.

FORWARD MEETING INVITES

Incoming invitations from Skype4B / Teams, Webex, Pexip, Google Hangouts, Bluejeans, Zoom, StarLeaf and other VMR providers can be forwarded to meeting rooms and get OBTP/CTJ. Optimize your existing video investment.

DYNAMIC VMR CREATION

Book a room in your e-mail client or simply add pre-defined keyword (e.g. '@video') in the subject field to create a unique VMR. Anyone can create and join video meetings, with no training necessary.

END OF CONFERENCE WARNINGS

Customizable end of conference warnings. Advantageous for room and time management.

SKYPE IVR OPTION

Enables external video systems to join Skype Online (S4B 0365) meetings.

AUTO DIAL OUT

Configure dial-out to rooms that doesn't support OBTP/CTJ or to rooms that prefer to be auto connected.

INTEGRATED RECORDING

Simply add a recording alias to the meeting invitation in order to record or stream meetings. Supported vendors are Quickchannel, Panopto and Rec.VC.

CUSTOM INVITATION

Design user-friendly invitations that reflects your company's branding.

Synergy JOIN is a server application that interfaces with enterprise calendaring systems and video conferencing endpoints to simplify the scheduling and initiation of meetings.

SYNERGY OF THINGS

Synergy of Things optimizes resource utilization by better understanding scheduling behaviour. Using Synergy JOIN, CONTROL and ANALYZE together, organizations can now harness the power of their calendaring system to optimize their meeting room facilities using endpoints and in.room sensors.

NO-SHOW DETECTION

Informs the meeting organizer when a booked room is not being used. Administrators can implement rule-based logic to de-book unused rooms. Virtual meeting remain untouched.

BOOKING AND UTILIZATION REPORTS

Synergy of Things leverages endpoint and sensor information to deliver analytics on usage and resource utilization. Collecting data from booked versus actual usage, the Synergy of Things platform provides insight into virtual meeting technology trends, space utilization and visibility to possible meeting-based asset management improvements.

NO-SHOW PRE-WARNING

The Synergy of Things technology can be used to send pre-warnings to administrators and/or a meeting organizer if there is no one in the room at meeting start time.
